Mechanical Engineering is one of the
oldest and broadest engineering
disciplines. Mechanical engineers require
an understanding of core concepts of
mechanics, kinematics,
thermodynamics, materials science,
structural analysis, and electricity.
Mechanical engineers use these core
principles along with tools like computer-
aided engineering and product lifecycle

Summer Training Project Report - GitHub Pages

Industrial Training is important for
making an engineering student work
ready. To graduate from an engineering
program at UNSW all students must
complete a minimum of 60 days of
approved Industrial Training. It means,
not only do you graduate with some real
on-the-job experience, you also qualify
for accreditation by Engineers Australia.
