Note: If you're looking to insert the contents of your PDF file into an Office file, as opposed to simply inserting the PDF as an attachment, then your best bet is to open that PDF with Word 2013 or 2016. Word will convert the PDF to editable text and you can then copy and paste that text into your Office document. For more information, go to [Edit PDF content in Word](#).

After playing around with the new (totally disappointing) Outlook 2013 I found that the ribbon would keep hiding. While that is annoying enough and I wanted to turn it back to how it was by default, what was really ticking me off was that someone else inadvertently made this happen while on my computer and...
