## **Microsoft System Center 2012 Orchestrator Training**

Microsoft System Center Orchestrator was introduced as part of the Microsoft System Center 2012 suite as a rebranding of Microsoft's previous workflow automation software, Opalis vNext. Orchestrator uses a drag and drop graphical interface to allow admins to define run books. Orchestrator translates these visual representations into .NET scripts, PowerShell or SSH commands to automate workflows.

## **What is Microsoft System Center Orchestrator? - Definition ...**
