MTK Acrylic Urethane - English Color

Painted car on Wednesday night using PPG Omni MTK acrylic urethane Single Stage and my last coat has a lot of orange peel. Is my best bet to wet sand with 1500 or buff out? Any advice would be appreciated. Dave

Orange Peel - Single Stage - meguiarsonline.com

Painting single stage and mixing clear with the final coat is not uncommon at all. Some paint lines, even the inexpensive ones, offer this option. Case in point, PPG Omni MTK acrylic urethane gives the painter the option of mixing 50/50 with clear in the final coat. And that's exactly what I did Sunday when I painted the cab of my truck.

single stage vs. base clear? - Hot Rod Forum : Hotrodders ...

I am in need of advice for selecting a good single stage paint for my 1937 IH truck. I bought some Omni MTK single stage and painted a few pieces already. Needless to say it think its pretty low quality paint. It took several coats to cover well and it doesn't color sand very well. I am looking to get the best single stage for the money.

Need help selecting single stage paint | The H.A.M.B.

Omni System Selection Guide - PPG Refinish

I want to use an single stage product to eliminate spraying a separate clear coat and refinish problems associated with clear. I am struggling with using Omni MTK Acrylic Urethane or the Concept DCC. The price difference is \$167 vs. \$438 for a gallon of each with hardner. I want a good paint job, but not a show job. Any comments? Thanks, Ralph.

PPG Omni vs. Concept • How to Paint Your Own Car, Auto ...

When I first started I was using Nason Acrylic enamel. these days I have shot various single stage paints and Dupont base/clear. I want to find one paint type and brand and just use that and I see that Dupont carries both Urethane and Acrylic Urethane single stage paint. What is the difference in these two paints?

Urethane vs. Acrylic Urethane single stage paint. • How to ...

Single-stage urethane bypasses some of these time-consuming steps, but at a cost. Urethane

Single Stage Paints When urethane paints are applied in stages, the last stage is applying the "clear coat" or layer of protector design to add to the sheen of the paint and protect it from damage.

Can You Sand Single Stage Urethane Paint? | It Still Runs

The best Single stage paint Genesis® 2.8 Low VOC Acrylic Urethane is extremely durable, provides high gloss and is chemical/solvent resistant. Genesis® 2.8 can be air dried or force dried for a urethane-tough enamel that is ideal for OEM, Fleet, Truck, and Special Vehicle finishing.
