An atlas is a collection of maps; it is typically a bundle of maps of Earth or a region of Earth.. Atlases have traditionally been bound into book form, but today many atlases are in multimedia formats. In addition to presenting geographic features and political boundaries, many atlases often feature geopolitical, social, religious and economic statistics. ...

Printed maps display coordinates plotted to the datum selected by the mapmakers. In the UK (which uses OSGB36), Ireland, France and Germany, these datum will not be the coordinates used in Wikipedia thus leading to differences of over 100m. See geographic coordinate system for more information. For country specific systems, such as the UK OS grid references, see here.
