For Neptune Apex owners, the "Unofficial New User Guide" by Alan Jones was a helpful resource to guide you through setting up and using your Apex controller and finally Neptune and Jones teamed up to make this 'unofficial' guide 'official' with the release of Apex Comprehensive Reference Manual. Alan converted the document to carry the official Neptune branding and design and is ...

Apex vs Apex Lite. Apex and Apex Lite are both AquaController devices from Neptune Systems. Apex Lite is the newer version of the basic Apex AquaController system that has been introduced into the market with some slight changes. Both the controllers run the same software, share the same cases, and are compatible with the same accessories.

Why does BRS recommend this? The Apex controller is by far one of the most advanced dedicated aquarium controllers on the market today. There are other controllers that are easier to use, however, the wide variety of controllability with the Apex controllers and their easy to use cloud interface makes it a perfect option for a fully automated reef tank.
