### **Nonlinear Control Design NpTEL**

The National Programme on Technology Enhanced Learning (NPTEL), a project funded by the Ministry of Human Resource Development (MHRD) was first conceived in 1999 to pave the way for introducing multimedia and web technology to enhance learning of basic science and engineering concepts. Significant infrastructure has been set up earlier for production of video/web-based teaching material by the ...

ABOUT. All India Council for Technical Education (AICTE) the statutory body and a national-level council for technical education, under Department of Higher Education, Ministry of Human Resource Development and NPTEL have signed an MOU on July 24, 2018 whereby advanced NPTEL online certification courses are approved for Faculty Development Programme (FDP) by AICTE.

The objective of ICORT-2019 is to offer a conducive platform for the brightest minds to interact to exchange innovations, best practices and emerging trends in Range technology, in particular, and pertinent engineering and science disciplines, in general.. Why to be part of ICORT-2019? The three-day event will host multi-track technical sessions, complemented by technical exhibition, tutorial ...

The course is an introduction to epistemological, methodological, and political aspects to the production of knowledge in contemporary times. The course will centre around two instruments: (1) A set of published papers and knowledge artefacts which will be analysed i.e. to function as models and (2) The design and execution of a dummy research project.

Statistical inference is the process of using data analysis to deduce properties of an underlying probability distribution. Inferential statistical analysis infers properties of a population, for example by testing hypotheses and deriving estimates. It is assumed that the observed data set is sampled from a larger population.. Inferential statistics can be contrasted with descriptive statistics.
