Our Consultants

Aboriginal mental health providers. Elders, healers and cultural counsellors are vital parts of many Aboriginal mental health services, and other members of a treatment, and/or mental health and wellness staff, assist them in providing service to Aboriginal people and communities.. Some practitioners, however, exclusively use traditional Aboriginal healing methods.

A cognitive conceptualization of low self-esteem has been proposed (see Figure 1) and a cognitive-behavioral treatment (CBT) program described (Fennell, 1997, Fennell, 1999, Fennell, 2004). Despite self-evaluative beliefs commonly being a target for intervention in CBT (e.g., Padesky, 1991, Padesky, 1994), the effectiveness of CBT for low self-esteem has yet to be systematically evaluated.
