A shoe is an item of footwear intended to protect and comfort the human foot while the wearer is doing various activities. Shoes are also used as an item of decoration and fashion. The design of shoes has varied enormously through time and from culture to culture, with appearance originally being tied to function.

Shoe - Wikipedia

Most people set out to purchase footwear knowing only their shoe size. That's important when buying wellies, of course, but it's also helpful to know your calf size – adding a couple of extra centimeters to allow room for your trousers – since some models will be tighter than others.

My usual fashion history sleuthing came up empty as to the origins of the saddle shoe design. What we do know is that it was initially a sport shoe designed for men. Golfers, in particular, picked up on the two tone color scheme and incorporated it with their uniforms starting around 1910 and lasting well beyond the '20s and '30s.
