

## *Operations Management Second Edition*

### **Operations Management Second Edition**

Operations management is an area of management concerned with designing and controlling the process of production and redesigning business operations in the production of goods or services. It involves the responsibility of ensuring that business operations are efficient in terms of using as few resources as needed and effective in terms of meeting customer requirements.

This is the official website for the third edition of "Matching Supply with Demand: An Introduction to Operations Management" (McGraw Hill, 2011) by Gérard Cachon and Christian Terwiesch, the Wharton School, University of Pennsylvania.

### **Matching Supply with Demand: An Introduction to Operations ...**

Operations and Supply Management. The operations and supply management program offered by the Department of Management Information Systems, Operations Management, and Decision Sciences includes a major and a minor in operations and supply management (OPS).

### **Management Information Systems, Operations Management, and ...**

Instructions per second (IPS) is a measure of a computer's processor speed. For CISC computers different instructions take different amounts of time, so the value measured depends on the instruction mix; even for comparing processors in the same family the IPS measurement can be problematic. Many reported IPS values have represented "peak" execution rates on artificial instruction sequences ...
