

## *Oracle Report Builder 10g User Guide*

### **Oracle Report Builder 10g User**

I am using Oracle forms builder 10g and I added a button where I assigned a trigger on button pressed. The pl/sql code compiles well, but when I click the button, a Forms message pop up saying . Please acknowledge message. with an ok button. When I press ok the code continues to run and I get the desired result. Note that I have this issue on every trigger I create.

In this case, I have created a plan directive that is a part of an overall plan called MAIN\_PLAN. This particular plan directive is designed to limit the impact of online ad-hoc users (or perhaps applications that are throwing out a great deal of dynamic SQL that's hard to tune) if they issue queries that take a long time (in this example, 3 seconds).

As a general rule, all available memory on the host should be tuned, and RAM resources should be given to db\_cache\_size up to a point of diminishing returns. There is a point where the addition of buffer blocks will not significantly improve the buffer hit ratio, and this gives the Oracle DBA the ability to find the optimal amount of buffers.
