

Outbreak Study Guide

Outbreak Study Guide

Outbreak investigation. When investigating disease outbreaks, the epidemiology profession has developed a number of widely accepted steps. As described by the United States Centers for Disease Control and Prevention, these include the following: Identify the existence of the outbreak (Is the group of ill persons normal for the time of year, geographic area, etc.?)

West African Ebola virus epidemic - Wikipedia

A center pivot irrigation system intended to pump livestock wastewater onto adjacent farmland in Nebraska malfunctioned and allowed excessive runoff to collect in a road ditch near two wells that fed a municipal water supply, sickening 39 persons who consumed untreated city water. The use of culture-independent diagnostic tests facilitated case identification, allowing for rapid public health ...
