ONE WHEEL I don't think there is any rational way you could call a vehicle with one wheel a car. The Museum has an extensive collection of monowheels, but very few of them have any form of bodywork and the majority can only carry one person. A possible candidate might be the monowheel tank (preferably as the civilian version).

A logical evolution of the M48. The M60 looks, at first glance, very much like the M48 designed five years earlier, and for good reasons. It was nothing more than an evolution of the type but modified too extensively in too many ways to be considered by the US Ordnance a simple version of the latter.
