Results from studies investigating the effects of different sleep patterns and schedules on academic performance showed that students who sleep poorly, with an elevated sleep fragmentation (i.e., reduced sleep quality), with later bedtimes and early awakenings, usually tend to offer a decreased academic performance and a reduced neurobehavioural functioning.<sup>14, 25, 26</sup> However, the studies seen ...

I've already devoted more time to Protandim than it deserves. I've written about it twice on SBM: here and here. But I can't resist covering a new Protandim study that not only serves as a bad example but that made me laugh. Protandim is a mixture of 5 herbal supplements intended to ...

Although reading 1481 pages on disinfectants and all of the chemistry involved in their mechanisms and activities may not sound particularly riveting, this book thankfully has an entire chapter dedicated to "Disinfection and Disease Prevention in Veterinary Medicine" (Ch. 54) which is highly applicable to aviculturists, and is easy to read.

La physique des plasmas est la branche de la physique qui étudie les propriétés, la dynamique et les applications des plasmas. Un plasma est une phase de la matière constituée de particules chargées, d'ions et d'électrons [1]. La physique des plasmas, tout comme la physique des liquides et des gaz, n'est pas à un domaine de la physique à part entière.

Fusion power is a proposed form of power generation that would generate electricity by using heat from nuclear fusion reactions. In a fusion process, two lighter atomic nuclei combine to form a heavier nucleus, while releasing energy. Devices designed to harness this energy are known as fusion reactors.. Fusion processes require fuel and a confined environment with sufficient temperature ...

The predictive accuracy of the model is computed from the testing set which provides an estimation of the generalization errors. In order to obtain reliable results regarding the predicting performance of a model, training and testing samples should be sufficiently large and independent while the labels of the testing sets should be known.
