Vocabulary building Affixes and roots. Adding affixes to existing words (the base or root) to form new words is common in academic English. Prefixes are added to the front of the base (like dislike), whereas suffixes are added to the end of the base (active activate). Prefixes usually do not change the class of the base word, but suffixes usually do change the class of the word.

### **Vocabulary: Building - Using English for Academic Purposes**

Prefixes are widely used to form new words which may convey totally different meanings. A Prefix is placed before a root word to make a new word.

Selectional restrictions. As is often the case with derivational morphology, many English prefixes can only be added to bases of particular lexical categories (or "parts of speech"). For example, the prefix re-meaning "again, back" is only added to verb bases as in rebuild, reclaim, reuse, resell, re-evaluate, resettle. It cannot be added to bases of other lexical categories.
