1. Introduction. Workers intervene in all phases of a machine life cycle (i.e. installation, operation, maintenance, troubleshooting, repairs, adjustments, set-up, production disruptions, cleaning, and dismantling) and consequently their exposure to different types of machinery hazards and hazardous energies can result in injury or death (Chinniah, 2015, Yamin et al., 2016).

### **Qualitative study on the control of hazardous energy on ...**

The Department of Agricultural and Biosystems Engineering offers a bachelor of science degree in Industrial Technology (ITec), as well as an undergraduate certificate in Occupational Safety.
