Setting up and Using the Volume Shadow Copy Service. Setting up the Volume Shadow Service (Part 2 of 3) Preface: Now we will configure VSS to take "snapshots" twice a day this way we can revert to files from those different times

Setting up the Volume Shadow Service (Part 2 of 3)

Network Time Protocol - NTP- is a protocol which runs over port 123 UDP at Transport Layer and allows computers to synchronize time over networks for an accurate time. While time is passing by, computers internal clocks tend to drift which can lead to inconsistent time issues, especially on servers and clients logs files or if you want to replicate servers resources or databases.

You sure you want to do without CI/CD? By following this article, you will be equipped with the basic knowledge to be able to set up a CI/CD environment on Gitlab and deploy your NodeJS project to Heroku in less than an hour. Of course, we will not be going in-depth on how to write unit tests and that can be further explored in another article.

Setting up CI/CD on Gitlab (step by step guide) — Part 1

ADEQUATE NUTRITION AND EDUCATION are key to the development of children and their future livelihoods. The reality facing millions of children, however, is that these essentials are far from being met. A countrys future hinges on its youth. Yet children who go to school hungry cannot learn well. They have decreased physical activity, diminished cognitive abilities and reduced resistance to ...

PL/SQL Developer is one of several integrated development environments (IDEs) that are available for Oracle, and it happens to be my favourite. One of the things I like about it is how configurable it is - you can change almost anything, and with downloadable plug-ins such as Browser Extender you can add your own functionality. After moving PCs several times and having to reinstall PL/SQL ...
