

Sustainability Of Global Biogas Developments

Sustainability Of Global Biogas Developments

Biogas production has seen a significant growth in the last years in Europe, mainly driven by the favourable support schemes in place in several European Union Member States (). In 2015, the total biogas production in the European Union reached 654 PJ of primary energy or more than 18 billion m³ natural gas equivalent [], as result of a long term development, with 92 PJ biogas produced in 2000 ...

1. Introduction. Aquaculture has been on the frontline of public concerns regarding sustainability. Different issues are raised, such as the use of fish meal and oil as feed ingredients (Naylor et al., 2000), escapees of farmed fish from sea cages into the wild and the discharge of waste into the environment (Boyd et al., 2005, Buschmann et al., 2006).

New developments in recirculating aquaculture systems in ...
