Description. The Swift is a large cased .224 caliber cartridge and bullet that was created for small game such as prairie dogs, groundhogs and other vermin (or "varmints" in the US) such as marmots. When introduced it was 1,400 ft/s (430 m/s) faster than its nearest varmint-hunting competitor, which was the .22 Hornet (also .224 caliber). It was found to be an extremely accurate cartridge as well.

Now, lets apply the knowledge obtained from all these reference sources to our Triple Deuce. We will now assume the handloader has a press, scale and priming tool. Then lets look at some additional loading equipment including dies, a powder measure, overall length tool and some specific handloading components including brass, primers, powder and bullets.

RELOADING MATERIALS - tripledeuce

The Tactical 20 was designed by Todd Kindler, owner of The Woodchuck Den, Inc. for precision long-range varmint shooting. The goal was to design a twenty-caliber cartridge with super long-range performance, but on a modest case design to minimize recoil and noise.

weatherby makes a varmint rifle in a swift. nice gun. single shot bolt action. I went with the ruger #1, since i wanted a falling block action. the cartridge was designed in the 30's and has really been the fastest factory cartridge ever since. it got a bad rep at the time because the rounds could be hotter than the quality of the barrels. that can be debatable as well. the new 204 should be a ...
