A steel detailer is a person who produces detailed drawings for steel fabricators and steel erectors. The detailer prepares detailed plans, drawings and other documents for the manufacture and erection of steel members (columns, beams, braces, trusses, stairs, handrails, joists, metal decking, etc.) used in the construction of buildings, bridges, industrial plants, and nonbuilding structures.

Steel detailer - Wikipedia

Connection design according to the new AISC 360-16 (15th Ed.) Steel Manual has now been implemented in RISACONNECTION. To select this code for your design, simply choose either LRFD or ASD from the Solution tab within the Global Project Settings.

Autodesk Revit is building information modelling software for architects, landscape architects, structural engineers, MEP engineers, designers and contractors. The original software was developed by Charles River Software, founded in 1997, renamed Revit Technology Corporation in 2000, and acquired by Autodesk in 2002. The software allows users to design a building and structure and its ...

Autodesk Revit - Wikipedia

The Anglemaster-HD can punch round or shaped holes (obrounds, slots, etc), stamp or mark parts, and shear parts to length in a single pass. This allows for a streamlined production process without the need to handle parts multiple times, or maintain an array of manual operations to achieve the desired result.

J & D Pierce (Contracts) Ltd was formed by Jim Pierce, our Chairman & joint Managing Director. Initially the business operated as a one man operation carrying out light fabrication and blacksmith work from a small workshop attached to the house. The early years were spent, like most new businesses, in an uphill battle to build a small customer base, forming positive relationships with local ...
