The Audit Process Principles Practice

Foreword The time has come for everyone in the NHS to take clinical audit very seriously. Anything less would miss the opportunity we now have to re-establish the confidence

Principles for Best Practice in Clinical Audit

An audit is a systematic and independent examination of books, accounts, statutory records, documents and vouchers of an organization to ascertain how far the financial statements as well as non-financial disclosures present a true and fair view of the concern. It also attempts to ensure that the books of accounts are properly maintained by the concern as required by law.
