An unfinished creative work is a painting, novel, musical composition, or other creative work, that has not been brought to a completed state. Its creator may have chosen not to finish it, or may have been prevented from doing so by circumstances outside of their control, such as death. Such pieces are often the subject of speculation as to what the finished piece would have been like had the ...

The Xerox Alto is the first computer designed from its inception to support an operating system based on a graphical user interface (GUI), later using the desktop metaphor. The first machines were introduced on 1 March 1973, a decade before mass market GUI machines became available. The Alto is contained in a relatively small cabinet and uses a custom central processing unit (CPU) built from ...
