Contextual Determinants of Malaria | NHBS Academic ...

This book takes the only logical approach and begins by analysing the history of malaria around the globe and attempting to identify the current determinants of malaria risk. The authors identify determinants far beyond the purely biomedical to include climate, population movement, demography, and economic and social development.

Contextual Determinants of Malaria. | International ...

The contextual determinants of malaria Article in Transactions of the Royal Society of Tropical Medicine and Hygiene 97(1):52-52 · January 2003 with 3 Reads How we measure 'reads'

The contextual determinants of malaria - ResearchGate

Contextual factors associated with childhood mortality and illness, including malaria, can be broadly categorized into the fundamental and

proximate determinants of disease [74][75][76][77][78][79...

(PDF) The Contextual Determinants of Malaria.: Casman EA ...

This study found that media played an important role in the prevention of malaria as its prevalence is lower among those who have watched television or listened to radio programs addressing malaria intervention programs, which supports the positive findings of the influence of mass media for eliminating malaria in African settings .

Prevalence and associated determinants of malaria ...

Malaria transmission is complex, involving a range of hydroclimatological, biological, and environmental processes. The high degree of non-linearity in these processes makes it difficult to predict and intervene against malaria. This study seeks both to define a minimal number of malaria transmission determinants, and to provide a theoretical basis for sustainable environmental manipulation to ...

Environmental determinants of malaria transmission in ...

Environmental determinant of malaria cases among travellers Abstract. Approximately 125 million travellers visit malaria-endemic countries annually and about 10,000 cases of... Background. Malaria is an important threat not only for autochthonous populations, but also for non-immune individuals... ..

Environmental determinant of malaria cases among ...

Malaria is an infectious disease caused by the anopheles mosquito that kills at least one million people in Sub-Saharan Africa every year, leading to human suffering and enormous economic losses. This paper examines the complex web of cultural, poor socio-economic conditions and environmental factors for the prevalence of malaria in Bali Nyonga.

The Social Epidemiology and Burden of Malaria in Bali ...

The contextual determinants of malaria risk (Casman et al., 2002) are an important component for understanding and reducing the burden of this disease. Our assessment of malaria control and prevention actions incorporates interventions at both the proximal and distal levels.

The persistent problem of malaria: Addressing the ...

By placing climate in this perspective, The Contextual Determinants of Malaria focuses attention on the public health needs most critical in both the immediate and long-term future. It encourages multidisciplinary analysis of malaria control, and improves our understanding of the interactions of the diverse range of factors involved in the incidence and spread of the disease.

The Contextual Determinants of Malaria | Bookshare

Malaria is unique among diseases because its roots lie so deep within human communities. The most dangerous vectors of malaria thrive mainly within the village environment. Logically, the adult vectors remain close to their nocturnal source of human blood, and the developmental stages of these mosquitoes

The behavioural and social aspects of malaria and its control

Examines the contextual determinants of malaria and attempts to develop methods for incorporating them into projections of incidence. This book provides regional and global perspectives on risk modeling, the history of eradication efforts, current determinants including environmental, social, and economic factors.

The contextual determinants of malaria (Book, 2002 ...

Education, gender and livelihoods are the major determinants of malaria acquisition.

Social determinants of malaria and health care seeking ...

Although malaria distribution is mostly determined by the climatic and environmental factors which affect mosquito and malaria parasite reproduction and proliferation at a given time, malaria is also influenced by various socio-economic factors [3, 4, 26, 28, 40, 41]. In the current study, important associations between malaria occurrence and risk factors were observed which cannot be explained by any of the factors included in this analysis.

Socio-economic determinants for malaria transmission risk ...
