Darwin Awards: Evolution In Action

The Darwin Awards are a tongue-in-cheek honor, originating in Usenet newsgroup discussions around 1985. They recognize individuals who have supposedly contributed to human evolution by selecting themselves out of the gene pool via death or sterilization by their own actions.. The project became more formalized with the creation of a website in 1993, and followed up by a series of books ...

The Evolution of Charles Darwin A creationist when he visited the Galápagos Islands, Darwin grasped the significance of the unique wildlife he found there only after he returned to London

The Evolution of Charles Darwin | Science | Smithsonian

Charles Darwin's theory of evolution by natural selection is the foundation upon which modern evolutionary theory is built. The theory was outlined in Darwin's seminal work On the Origin of Species, published in 1859. Although Victorian England (and the rest of the world) was slow to embrace natural selection as the mechanism that drives evolution, the concept of evolution itself gained ...

Charles Darwin | Biography & Facts | Britannica.com

Darwinism is a theory of biological evolution developed by the English naturalist Charles Darwin (1809–1882) and others, stating that all species of organisms arise and develop through the natural selection of small, inherited variations that increase the individual's ability to compete, survive, and reproduce. Also called Darwinian theory, it originally included the broad concepts of ...
