Britain had long manufactured textiles The damp climate is good for grazing sheep, so for centuries, the country was renowned for its fine woolens. Flax, the raw material for linen, also thrives in rain. Linen and wool were used to make the linsey-woolsey worn by all but the richest people in the Middle Ages and Renaissance.

A history of the British cotton industry - British Heritage

The heritage industry: Britain in a climate of decline. A very provocative and damning study of Britain's heritage industry in which Hewison suggests that heritage has become a poor replacement for industrial employment during the postwar period. Written during the economic problems of the late 1980s, perhaps a little dated now, or are we going through another period of decline?
