Request PDF on ResearchGate | The preclinical profile of crizotinib for the treatment of non-small-cell lung cancer and other neoplastic disorders | Introduction: The critical role of the activity ...

The preclinical profile of crizotinib for the treatment of ...

Crizotinib potentiated downstream signals of p53 activation in topotecan-treated neuroblastoma cells in vitro. Although crizotinib increased levels of phosphorylated p53 s15 in the crizotinib-sensitive line, NB-1643 (Fig. 4A and B), it did not in the crizotinib-insensitive SH-SY5Y (Fig. 4C and D) and NB-EBc1 (Fig.

Crizotinib Synergizes with Chemotherapy in Preclinical ...

Clinical development of crizotinib for NSCLC. Since the initial results were reported to the FDA, Profile 1005 has continued to enroll patients. As of June 2011, 439 patients were evaluable for safety and 255 were evaluable for tumor response. 27 At that time, the objective response rate was 53%...

Clinical use of crizotinib for the treatment of non-small ...

In the preclinical studies described in the paper, brigatinib was shown to be a highly potent and selective inhibitor of ALK, inhibiting ALK at lower concentrations than crizotinib, ceritinib, and ...

ARIAD Announces Publication of the Preclinical Profile of ...

Xalkori (Crizotinib) It is used to treat people with advanced, metastatic non-small cell lung cancer (NSCLC) whose disease is caused by a defect in the ALK (anaplastic lymphoma kinase) or ROS1 genes. The ALK gene defect can be determined by a test that is also approved by the U.S. Food and Drug Administration (FDA).

Xalkori (Crizotinib) - Lung Cancer News Today

A Clinical Trial Testing The Efficacy Of Crizotinib Versus Standard Chemotherapy Pemetrexed Plus Cisplatin Or Carboplatin In Patients With ALK Positive Non Squamous Cancer Of The Lung (PROFILE 1014) CR was defined as complete disappearance of all target lesions and non-target disease. All nodes, both target and non-target,...

A Clinical Trial Testing The Efficacy Of Crizotinib Versus ...

Approval of Crizotinib. To compare crizotinib with standard chemotherapy, PROFILE 1007, the first head-to-head phase III study, was conducted at 105 sites in 21 countries, randomly assigned 347 patients with ALK-positive, stage IIIB or IV NSCLC to crizotinib, pemetrexed, or docetaxel.9 According to the results,...

Ceritinib (LDK378): A Potent Alternative to Crizotinib for ...

Overview of Clinical Trials. The one- and two-year survival rates for patients treated with crizotinib were 74 and 54%, respectively, with a median follow-up of 18 months. In a cohort of 36 patients with the ALK fusion oncogene, who were not treated with crizotinib, the survival rates at one- and two-years were 44 and 12%, respectively.

Crizotinib: A comprehensive review - PubMed Central (PMC)

The safety profile of crizotinib was consistent with that reported earlier in patients with previously treated advanced ALK-positive NSCLC 10 and differed from that observed with chemotherapy.

First-Line Crizotinib versus Chemotherapy in ALK-Positive ...

inhibited by submicromolar doses of crizotinib, and subsequently underwent apoptosis. Conclusions: The ROS1-translocated HCC78 cell line was sensitive to inhibition by the multitargeted ALK/MET/ROS1 inhibitor crizotinib. Preclinical data supports the clinical development of crizotinib for ROS1-translocated NSCLC.

Preclinical Rationale for Use of the Clinically Available ...

Preclinical Rationale for Use of the Clinically Available Multitargeted Tyrosine Kinase Inhibitor Crizotinib in ROS1-Translocated Lung Cancer Author links open overlay panel Hiroyuki Yasuda MD Lorena L. de Figueiredo-Pontes MD, PhD Susumu Kobayashi MD, PhD Daniel B. Costa MD, PhD

Ariad Announces Publication Of The Preclinical Profile Of Brigatinib In The Journal Clinical Cancer Research - read this article along with other careers information, tips and advice on BioSpace

Ariad Announces Publication Of The Preclinical Profile Of ...

Crizotinib in ALK-Positive Non-Small Cell Lung Cancer The impact of crizotinib on the clinical course of patients with ALK-positive NSCLC was quickly appreciated after the results of the PROFILE 1001 study were published in 2010.6 In this open-label, phase 1 study, 82 patients who had ALK-positive NSCLC were treated with crizo-tinib.

ALK Inhibitors in Non-Small Cell Lung Cancer: Crizotinib ...

blood brain barrier in ALK-driven tumor models.2 Specifically, in these preclinical models, lorlatinib had activity against all tested clinical resistance mutations in ALK. A Phase 1/2 clinical trial of lorlatinib in patients with ALK-positive or ROS1-positive advanced NSCLC is currently ongoing.
