Pink lemonade doesn't really make any sense, if you think about it. Lemons are yellow, yet this lemon-based beverage is pink. Some people assume that there are red-colored berries responsible for this oddity; this is sometimes true, but usually not -- and that's certainly not how it was originally invented.

Ironic process theory, ironic rebound, or the white bear problem refers to the psychological process whereby deliberate attempts to suppress certain thoughts make them more likely to surface. An example is how when someone is actively trying not to think of a white bear they may actually be more likely to imagine one.
