### **Thought Transference Or What In**

Telepathy (from the Greek τῆλε, tele meaning "distant" and πάθος, pathos or -patheia meaning "feeling, perception, passion, affliction, experience") is the purported vicarious transmission of information from one person to another without using any known human sensory channels or physical interaction. The term was coined in 1882 by the classical scholar Frederic W. H. Myers, a ...

### **Telepathy - Wikipedia**

Transference (German: Übertragung) is a theoretical phenomenon characterized by unconscious redirection (projection) of the feelings a person has about their parents, as one example, on to the therapist. It usually concerns feelings from a primary relationship during childhood. At times, this projection can be considered inappropriate.
