5. I am unable to continue my training from where I left off. What can I do? Answer: When a user attempts Cyber Awareness Challenge 2019 for the first time, the launch page will offer a single option to "Start New Session". The other option displayed, "Continue Existing Session", will initially be grayed out and unavailable for selection.

Use thermometers designed for use in refrigerators. It's best to use one in each compartment. The cooling effect from most RV refrigerators originates in the freezer compartment and then goes into the main compartment, so if the freezer is okay but not the main compartment, you likely have reduced airflow.

Here is a color-coded diagram of how these components are located on the printed circuit board: If you have questions about the specification or appearance of any item, check the part number at the Digi-Key site ([www.digikey.com](http://www.digikey.com)) first. Entering the part number in their search engine will give you access to both the catalog information and the data sheet from the manufacturer.

Hi. I have a Samsung RSG5DUMH American style fridge freezer. The compressor and main PCB have been changed a year or so ago. Its a very odd problem, when the fridge is cool, ie 1 to 5 degree and the freezer seems to get hotter, ie instead of -21 it usually 3 to 5 degrees... the only way I can get both sides back to normal temperature is to turn the power off then back on, this resolves the ...
