

Turbo Hi Tec Wood Heater Manual

Turbo Hi Tec Wood Heater

With the damper closed the wood is being burnt in the most efficient way, giving off the most heat for the wood used; the only thing to worry about then is the air intake. ... Does Turbo 10 Hi-Tec ...

How do you operate a hi tec burning log turbo 10 fire?

First post here so let's jump right in...as the title says, my stove is a Burning Log Turbo 10 Hi-tec. This winter I feel as I'm starting to understand how the thing works but yet I'm still confused. I've recently learned it is a catalyst stove. I gave the cats a good blowing out with compressed air.

Does Turbo 10 Hi-Tec wood stove need firebrick - answers.com

I have a fairly old 2nd hand Turbo 10 tiled wood burner and the way its going I think the Cold Air isnt entering the firebox properly. I remember seeing advertising material for these and they showed how air was circulated around the firebox as a 'preheater' before being burnt. I have checked the top damper to ensure its opening and I dont think the chimney is restricted because with the door ...

Turbo 10 wood burner Dampers - austech.info

Canberra's best selling wood heater. The Turbo 10 utilises the power of natural convection to heat an area up to 204 sq metres. The high mass furnace is lined with firebricks to reflect the heat back into the fire, making it burn hotter. The unit has a secondary burn chamber to improve efficiency and reduce operating costs.

Warm Glo Turbo 10 Freestanding Wood Burning Fireplace

Hi all, have an old turbo ten wood heater (70s -80s) that has 2 air control levers above the door. Its a steel welded firebox. Does anyone know how to do the preliminary setup of those air control valves? Apparently this was covered in the instruction book but i dont have one. Does anyone have a instruction booklet for those old turbo 10 fireboxes?
