Now you can make this easier and filter out the irrelevant results. Restrict your search results using the search tools to find only free Google eBooks.

Vb Keypress Manual Guide

The KeyPress event occurs when the user presses and releases a key or key combination that corresponds to an ANSI code while a form or control has the focus. This event also occurs if you send an ANSI keystroke to a form or control by using the SendKeys action in a macro or the SendKeys statement in Visual Basic.
