Students are asked to fill in a chart with animal names, subgroup information, and pictures they cut and paste from the worksheet.

**Vertebrate and Invertebrate Animals - TeacherVision**

Population of Vertebrates vs. Invertebrates . To date, nearly 2 million species of invertebrates have been identified. These 2 million species make up about 98% of the total animals identified in the entire animal kingdom, i.e., 98 out of 100 types of animals in the world today are invertebrates. On the other hand, vertebrates only form 2% of the animal species.
