

## *Virtual Immersive And 3d Learning Spaces Emerging Technologies And Trends*

### **Virtual Immersive And 3d Learning**

The initial idea for this course was first conceived when this developer created the first week of a 7th grade World Studies course for homeschoolers via Moodle. The professor that reviewed the course suggested that there was an increasing need for

### **Developing Immersive Virtual Learning Environments (VLEs ...**

Immersion into virtual reality is a perception of being physically present in a non-physical world. The perception is created by surrounding the user of the VR system in images, sound or other stimuli that provide an engrossing total environment.. The name is a metaphoric use of the experience of submersion applied to representation, fiction or simulation.
