"I think the world of Web development is becoming easier and easier but it's also making it harder for guys like me to find work because so many people want to use out-of-the-box responsive layout sites that are easy to implement and launch. I personally would much rather make a site from scratch than use a template.

Web design isn't art. It involves a whole collection of different skills — from copywriting and typography to layout and art — all fused together to create an interface that not only features a pleasant aesthetic but that communicates function and facilitates easy access to its content.. But in order to combine all these elements of Web design together and achieve successful results you ...
