### Facts about Whales for Kids - Whale Facts and Information

The blue whale is the largest mammal in the world. A blue whale calf weighs two tons (1,814 kilograms) at birth and gains an extra 200 pounds (91 kilograms) each day of its first year. Blue whales are able to breathe air, but they are very comfortable in the ocean waters where buoyancy helps to support their incredible bulk. These mammals are found in all the world's oceans and often swim in ...

### Blue Whale - National Geographic Kids

Whales are very large and very, very cool marine mammals found across all the world's oceans. There are two broad types of whales: baleen whales and toothed whales. Simply put, baleen whales have baleen plates instead of teeth that collect plankton, and toothed whales have teeth that allow them to eat larger fish and marine life.
